#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### NOTE 1—ORGANIZATION

#### **Company Overview**

HSN, Inc. ("HSNi") is an interactive multi-channel retailer that markets and sells a wide range of third party and proprietary merchandise directly to consumers through various platforms including (i) television home shopping programming broadcast on the HSN television networks; (ii) catalogs, consisting primarily of the Cornerstone portfolio of leading print catalogs which includes Ballard Designs, Chasing Fireflies, Frontgate, Garnet Hill, Grandin Road, Improvements and TravelSmith; (iii) websites, which consist primarily of HSN.com and the eight branded websites operated by Cornerstone; (iv) mobile devices; and (v) retail and outlet stores. HSNi's television home shopping business, related digital sales and outlet stores are referred to herein as "HSN" and all catalog operations, including related digital sales and stores, are collectively referred to herein as "Cornerstone."

HSN offerings primarily consist of jewelry, fashion (apparel & accessories), beauty & health, and home & other (including household, home design, electronics and culinary). Merchandise offered by Cornerstone primarily consists of home furnishings (including indoor/outdoor furniture, home décor, tabletop, textiles and other home related goods) and apparel & accessories.

#### **Basis of Presentation**

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP") for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). They do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of HSNi's management, all normal recurring adjustments considered necessary for a fair presentation have been included. Interim results are not necessarily indicative of the results that may be expected for a full year. The accompanying unaudited consolidated financial statements should be read in conjunction with HSNi's audited consolidated financial statements and notes thereto for the year ended December 31, 2013. The consolidated balance sheet as of December 31, 2013 and the consolidated statement of shareholders' equity for the year endedDecember 31, 2013 were derived from the audited consolidated financial statements at that date but may not include all disclosures required by GAAP. Intercompany transactions and accounts have been eliminated in consolidation.

#### **Recent Accounting Developments**

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"). It outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that revenue is recognized when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the good or service. ASU 2014-09 is effective for annual periods beginning after December 15, 2016, including interim periods within that annual period. HSNi is in the process of assessing the impact of the adoption of ASU 2014-09 to its consolidated financial statements.

#### NOTE 2—SIGNIFICANT ACCOUNTING POLICIES

#### Accounting Estimates

HSNi prepares its financial statements in conformity with GAAP. These principles require management to make certain estimates and assumptions during the preparation of its consolidated financial statements. These estimates and assumptions impact the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the consolidated financial statements. They also impact the reported amount of net earnings during any period. Actual results could differ from those estimates. In the opinion of HSNi's management, the assumptions underlying these interim unaudited financial statements are reasonable.

Significant estimates underlying the accompanying consolidated financial statements include: the determination of the lower of cost or market adjustment for inventory; sales returns and other revenue allowances; the allowance for doubtful accounts; the recoverability of long-lived assets; the impairment of intangible assets; the annual expected effective tax rate; the determination of deferred income taxes, including related valuation allowances; the accrual for actual, pending or threatened litigation, claims and assessments; and assumptions related to the determination of incentive compensation and contingent consideration.

#### NOTE 4—SEGMENT INFORMATION

HSNi presents its operating segments and related financial information in a manner consistent with how the chief operating decision maker and executive management view the businesses, how the businesses are organized as to segment management, and the focus of the businesses with regards to the types of products or services offered and/or the target market. HSNi has two operating segments, HSN and Cornerstone. The accounting policies of the segments are the same as those described in Note 2 – Summary of Significant Accounting Policies included in HSNi's Annual Report on Form 10-K for the year ended December 31, 2013. Intercompany accounts and transactions have been eliminated in consolidation.

HSNi's primary performance metric is Adjusted EBITDA, which is defined as operating income excluding, if applicable: (1) non-cash charges including: (a) stock-based compensation expense, (b) amortization of intangibles, (c) depreciation and gains and losses on asset dispositions, and (d) goodwill, long-lived asset and intangible asset impairments; (2) pro forma adjustments for significant acquisitions; and (3) other significant items. Significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, thereby affecting the comparability of results. Adjusted EBITDA is not a measure determined in accordance with GAAP, and should not be considered in isolation or as a substitute for operating income, net income or any other measure determined in accordance with GAAP. Adjusted EBITDA is used as a measurement of operating efficiency and overall financial performance and HSNi believes it to be a helpful measure for those evaluating companies in the retail and media industries. Adjusted EBITDA has certain limitations in that it does not take into account the impact to HSNi's consolidated statements of operations of certain expenses, gains and losses; including stock-based compensation, amortization of intangibles, depreciation, gains and losses on asset dispositions, asset impairment charges, acquisition-related accounting expenses and other significant items.

The following tables reconcile Adjusted EBITDA to operating income for HSNi's operating segments and to HSNi's consolidated net income (in thousands):

#### NOTE 5—EARNINGS PER SHARE

HSNi computes basic earnings per share using the weighted average number of common shares outstanding for the period. HSNi computes diluted earnings per share using the treasury stock method, which includes the weighted average number of common shares outstanding for the period plus the potential dilution that could occur if various equity awards to issue common stock were exercised or restricted equity awards were vested resulting in the issuance of common stock that could share in HSNi's earnings.

The following table presents HSNi's basic and diluted earnings per share (in thousands, except per share data):

On April 24, 2012, HSNi entered into a \$600 million five-year syndicated credit agreement ("Credit Agreement") which is secured by 100% of the voting equity securities of HSNi's U.S. subsidiaries and 65% of HSNi's first-tier foreign subsidiaries. Certain HSNi subsidiaries have unconditionally guaranteed HSNi's obligations under the Credit Agreement. The Credit Agreement, which includes a \$350 million revolving credit facility and a \$250 million term loan, may be increased up to \$850 million subject to certain conditions and expires April 24, 2017. HSNi capitalized \$5.5 million in financing costs related to the Credit Agreement and is amortizing these costs to interest expense over the Credit Agreement's five-year term.

The Credit Agreement includes various covenants, limitations and events of default customary for similar facilities including a maximum leverage ratio of 0.00x and a minimum interest coverage ratio of 3.00x. HSNi was in compliance with all such covenants as of September 30, 2014 with a leverage ratio of 0.70x and an interest coverage ratio of 55.58x. The Credit Agreement also contains covenants that limit our ability and the ability of our subsidiaries to, among other things, incur additional indebtedness, pay dividends or make other distributions to third parties, repurchase or redeem our stock, make investments, sell assets, incur liens, enter into agreements restricting our subsidiaries' ability to pay dividends, enter into transactions with affiliates and consolidate, merge or sell all or substantially all of our assets. Dividends, loans or advances to HSNi by its subsidiaries are not restricted by the Credit Agreement.

Loans under the Credit Agreement bear interest at a per annum rate equal to LIBOR plus a predetermined margin that ranges from 1.50% to 2.25% or the Base Rate (as defined in the Credit Agreement) plus a predetermined margin that ranges from 0.50% to 1.25%. HSNi can elect to borrow at either LIBOR or the Base Rate and the predetermined margin is based on HSNi's leverage ratio. The term loan interest rate as of September 30, 2014 was 1.66%. HSNi pays a commitment fee ranging from 0.25% to 0.40% (based on the leverage ratio) on the unused portion of the revolving credit facility.

The amount available to HSNi under the revolving credit facility portion of the Credit Agreement is reduced by the amount of outstanding letters of credit issued under the revolving credit facility, which totaled \$13.1 million as of September 30, 2014. The ability to draw funds under the revolving credit facility is dependent upon meeting the aforementioned financial covenants. As of September 30, 2014, the amount that could be borrowed under the revolving credit facility, in consideration of the financial covenants and the outstanding letters of credit, was approximately \$336.9 million. As of September 30, 2014, there was no outstanding balance due under the revolving credit facility.

#### NOTE 7-DERIVATIVE INSTRUMENTS

HSNi uses derivatives in the management of its interest rate risk with respect to its variable rate debt. HSNi's strategy is to eliminate the cash flow risk on a portion of its variable rate debt caused by changes in the benchmark interest rate (LIBOR). Derivative instruments are not entered into for speculative purposes.

HSNi entered into a forward-starting interest rate swap agreement on December 20, 2012 with a notional amount of \$187.5 million at a fixed rate of 0.8525%, resulting in an all-in fixed rate of 2.3525% based on HSNi's leverage ratio as of September 30, 2014. The interest rate swap took effect on January 31, 2014 with a maturity date in April 2017. Under this swap, HSNi pays at a fixed rate and receives payments at a variable rate based on one-month LIBOR. The swap effectively fixes the floating LIBOR-based interest of our outstanding LIBOR-based debt. The interest rate swap was designated and qualified as a cash flow hedge; therefore, the effective portion of the changes in fair value is recorded in accumulated other comprehensive income (loss). Any ineffective portions of the changes in fair value of the interest rate swap will be immediately recognized directly to earnings in the consolidated statements of operations. The change in fair value of the interest rate swap (inclusive of reclassifications to net income) for the three and nine months months ended September 30, 2014 was income of approximately \$0.5 million and less than \$0.1 million, respectively, net of tax, and was included in other comprehensive income (loss).

The fair value of the interest rate swap at September 30, 2014, December 31, 2013 and September 30, 2013 was an asset o \$0.6 million and was recorded in "Other non-current assets" in the consolidated balance sheets. HSNi estimates that approximately \$1.1 million of unrealized losses included in accumulated other comprehensive loss related to this swap will be realized and reported in earnings within the next twelve months. See Note 8 for discussion of the fair value measurements concerning this interest rate swap.

#### NOTE 8—FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Fair value assumptions are made at a specific point in time and changes in underlying assumptions could significantly affect these estimates. HSNi applies the following framework for measuring fair value which is based on a three-level hierarchy:

Level 1-Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2—Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3—Valuations based on unobservable inputs reflecting our own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the short maturity of these items. The following table summarizes the fair value of HSNi's other financial assets and liabilities which are measured at fair value on a recurring basis in the consolidated balance sheets (in thousands):

HSNi's interest rate swap was carried on the balance sheet at fair value as ofSeptember 30, 2014, December 31, 2013 and September 30, 2013. The swap was entered into in December 2012 for the purpose of hedging the variability of interest expense and interest payments on HSNi's long-term variable rate debt. The fair value is based on a valuation model which utilizes interest rate yield curves and credit spreads as the significant inputs to the model. These inputs are observable in active markets (level 2 criteria). HSNi considers credit risk associated with its own standing as well as the credit standing of any counterparties involved in the valuation of its financial instruments.

In connection with the 2012 acquisition of Chasing Fireflies, the purchase price included contingent consideration that is based on achieving specific annual performance targets or a cumulative three-year performance target for the three-year period ending December 31, 2014. HSNi reassessed its current estimates of performance relative to the stated targets as of September 30, 2014 and determined Chasing Fireflies is unlikely to achieve the necessary performance targets in 2014 to earn any of the outstanding contingent consideration. Therefore, HSNi adjusted the fair value of the contingent consideration to zero in the third quarter of 2014.

The following table summarizes the fair value of HSNi's financial assets and liabilities which are carried at cost (in thousands):

					S	eptember 30, 2014

		Value		Fair Value		Level 1		Level 2		Level 3
Term Loan	\$	243,750	\$	243,750	\$	_	\$	243,750	\$	_

The fair value of the term loan was estimated by discounting expected cash flows at the rates currently offered to HSNi for debt of the same remaining maturities (level 2 criteria).

HSNi measures certain assets, such as property and equipment and intangible assets, at fair value on a nonrecurring basis. These assets are recognized at fair value if they are deemed to be impaired. During the nine months ended September 30, 2014 and 2013, there were no assets evaluated for impairment as there were no events or changes in circumstances indicating their carrying amounts may not be recoverable.

#### NOTE 9—INCOME TAXES

HSNi calculates its interim income tax provision in accordance with the accounting guidance for income taxes in interim periods. At the end of each interim period, HSNi makes its best estimate of the annual expected effective tax rate and applies that rate to its ordinary year-to-date income or loss. The tax or benefit related to significant, unusual, or extraordinary items that will be separately reported or reported net of their related tax effect are individually computed and recognized in the interim period in which those items occur.

In addition, the effect of changes in enacted tax laws or rates, tax status, or judgment on the realizability of beginning-of-the-year deferred taxes in future years is recognized in the interim period in which the change occurs.

The computation of the annual expected effective tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected operating income for the year, permanent and temporary differences, and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, more experience is acquired, additional information is obtained or the tax environment changes. To the extent that the estimated annual effective tax rate changes during a quarter, the effect of the change on prior quarters is included in tax expense for the current quarter.

For the three and nine months ended September 30, 2014, HSNi recorded a tax provision of \$24.6 million and \$65.2 million, respectively which represents an effective tax rate of 38.4%. For the three and nine months ended September 30, 2013, HSNi recorded a tax provision of \$17.4 million and \$63.1 million, respectively, which represents effective tax rates of 29.3% and 35.1%, respectively. The change in the effective tax rate for the current year compared to the prior year periods was primarily due to discrete tax benefits of \$3.7 million realized in the third quarter of 2013 and the non-deductibility of the \$3.1 million civil penalty accrued for the Consumer Product Safety Commission settlement in the first quarter of 2014. See further discussion of the settlement in Note 12-Commitments and Contingencies.

The Internal Revenue Service ("IRS") has concluded its examination of HSNi's consolidated federal income tax return for the year ended December 31, 2010 and its limited scope examination of HSNi's consolidated federal income tax return for the year ended December 31, 2011. No material adjustments resulted from these IRS examinations. Various state income tax examinations are in process. HSNi does not anticipate any material adjustments to its tax liabilities resulting from any of these examinations.

HSNi and several companies previously owned by IAC/InterActiveCorp, or IAC, were spun-off from IAC on August 20, 2008. In connection with the spin-off, HSNi entered into a Tax Sharing Agreement with IAC pursuant to which, among other things, each of the companies included in the spin-off (the "Spincos") has indemnified IAC and the other Spincos for any taxes resulting from the spin-off of such Spinco (and any related interest, penalties, legal and professional fees, and all costs and damages associated with related shareholder litigation or controversies) to the extent such amounts result from (i) any act or failure to act by such Spinco described in the covenants in the Tax Sharing Agreement, (ii) any acquisition of equity securities or assets of such Spinco or a member of its group, and (iii) any breach by such Spinco or any member of its group of any representation or covenant contained in the separation documents or in the documents relating to the IRS private letter ruling and/or tax opinions. In the event an adjustment with respect to a pre-spin-off period for which IAC is responsible results in a tax benefit to HSNi in a post-spin-off period, HSNi will be required to pay such tax benefit to IAC. In general, IAC controls all audits and administrative matters and other tax proceedings relating to the consolidated federal income tax return of the IAC group and any other tax returns for which the IAC group is responsible. The provisions set forth in the Tax Sharing Agreement could subject HSNi to future tax contingencies.

The IRS has completed its review of the IAC consolidated tax returns for the years ended December 31, 2001 through 2009, which includes the operations of HSNi. The settlement for these years has been submitted to and approved by the Joint Committee on Taxation. Various IAC consolidated tax returns filed with state, local and foreign jurisdictions are currently under examination, the most significant of which are California, New York and New York City, for various tax years beginning with 2006. By virtue of the Tax Sharing Agreement with IAC, HSNi is indemnified with respect to additional tax liabilities for consolidated or combined federal and state tax returns prepared and filed by IAC prior to the spin-off, but is liable for any additional tax liabilities for HSNi separately filed state income tax returns.

Stock-based compensation expense after income taxes	\$	2,480	\$	1,916	\$	7,467	\$	6,582

As of September 30, 2014, there was approximately \$26.2 million of unrecognized compensation cost, net of estimated forfeitures, related to all equity-based awards which is currently expected to be recognized on a straight-line basis over a weighted average period of approximately 2.3 years.

The Second Amended and Restated 2008 Stock and Annual Incentive Plan, as amended (the "Plan"), authorizes the issuance of 8.0 million shares of HSNi common stock for new awards granted by HSNi. The purpose of the Plan is to assist HSNi in attracting, retaining and motivating officers, employees, directors and consultants, and to provide HSNi with the ability to provide incentives more directly linked to the profitability of HSNi's business and increases in shareholder value. As of September 30, 2014, there were approximately 2.5 million shares of common stock available for grants under the Plan.

HSNi can grant restricted stock, restricted stock units ("RSUs"), stock options, stock appreciation rights ("SARs"), dividend equivalents and other stock-based awards under the Plan. Stock-based awards have a maximum term of 10 years. The exercise price of options and SARs granted under the Plan is required to be at, or above, the fair market value of HSNi's stock on the date of grant. RSUs have rights to receive dividend equivalents that vest at the same time as the underlying RSUs once the requisite service has been rendered. HSNi elects to issue shares of its common stock for RSU vestings and SAR exercises net of the employees' minimum tax withholding obligation. The payments made by HSNi to the taxing authorities for these taxes for the nine months ended September 30, 2014 and 2013 were \$10.2 million and \$13.9 million, respectively.

A summary of the stock-based awards granted during the nine months ended September 30, 2014 is as follows:

	Nine Months Ended	September 30, 2014
	Number of Awards Granted	Weighted Average per Share Fair Value
Stock appreciation rights	423,579	\$15.24
Restricted stock units	234,039	\$55.14
Employee stock purchase plan options	43,646	\$12.67

The fair values of the options granted under the HSN, Inc. 2010 Employee Stock Purchase Plan and the SARs are estimated on the grant date using the Black-Scholes option pricing model. The weighted average assumptions used in the valuation of each for the nine months ended September 30, 2014 are as follows:

	Nine Months Ended	Nine Months Ended September 30, 2014			
	Black-S	choles

#### NOTE 11-SHAREHOLDERS' EQUITY

#### Share Repurchase Program

On September 27, 2011, HSNi's Board of Directors approved a share repurchase program which allowed HSNi to purchasel 0 million shares of its common stock from time to time through privately negotiated and/or open market transactions. The timing of repurchases and actual number of shares repurchased depended on a variety of factors, including the stock price, corporate and regulatory requirements, restrictions under HSNi's debt obligations and other market and economic conditions. For the nine months ended September 30, 2014, HSNi acquired under the program approximately 1.0 million shares of its outstanding common stock for\$55.5 million at an average price of\$54.87. In July 2014, HSNi completed its 10 million share repurchase program at an aggregate cost of\$451.0 million, representing an average cost of\$45.10 per share. All shares were immediately retired upon purchase.

#### **Dividend Policy**

In the third quarter of 2014, HSNi's Board of Directors approved a quarterly cash dividend of \$0.25 per common share. The dividend was paid on September 17, 2014 to HSNi's shareholders of record as of September 3, 2014.

In the fourth quarter of 2014, HSNi's Board of Directors approved a quarterly cash dividend of \$0.35 per common share. This represents an increase of 40% or \$0.10 per common share over the prior quarterly dividend. The dividend will be paid on December 17, 2014 to HSNi's shareholders of record as of December 3, 2014.

#### Accumulated Other Comprehensive Income (Loss)

Accumulated other comprehensive income (loss) includes the cumulative gains and losses of derivative instruments that qualify as cash flow hedges. The following table provides a rollforward of accumulated other comprehensive income (loss) for the nine months ended September 30, 2014 and 2013 (in thousands):

#### NOTE 12—COMMITMENTS AND CONTINGENCIES

In cooperation with the United States Consumer Product Safety Commission ("CPSC"), Frontgate, one of the Cornerstone brands, announced in January 2011 a voluntary recall of a product sold from December 2005 through July 2010. In June 2013, the CPSC notified the company that the CPSC was investigating whether the company complied with certain reporting requirements of the Consumer Product Safety Act. Based on a tentative settlement with the CPSC, the company accrued \$3.1 million in the first quarter of 2014 in "general and administrative" expenses in its consolidated statements of operations. A final settlement of \$3.1 million was reached in the second quarter of 2014 and paid in the third quarter of 2014.

In the ordinary course of business, HSNi is a party to various audits, claims and lawsuits. These audits or litigation may relate to claims involving property, personal injury, contract, intellectual property (including patent infringement), sales tax, product recalls, regulatory compliance, employment matters and other claims. HSNi has established reserves for specific legal or tax compliance matters that it has determined the likelihood of an unfavorable outcome is probable and the loss is reasonably estimable. Management has also identified certain other legal matters where it believes an unfavorable outcome is not probable and, therefore, no reserve is established. Although management currently believes that an unfavorable resolution of claims against HSNi, including claims where an unfavorable outcome is reasonably possible, will not have a material impact on its liquidity, results of operations, financial condition or cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future and an unfavorable resolution of such a proceeding could have a material impact. Moreover, any claims or regulatory actions against HSNi, whether meritorious or not, could be time-

consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources.

HSNi also evaluates other contingent matters, including tax contingencies, to assess the probability and estimated extent of potential loss. See Note 9 for discussion related to income tax contingencies.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this quarterly report. Historical results and trends which might appear should not be taken as indicative of future operations. Our results of operations and financial condition, as reflected in the accompanying statements and related notes, are subject to management's evaluation and interpretations of business conditions, changing market conditions and other factors.

#### FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"), which are based on management's exercise of business judgment, as well as assumptions made by and information currently available to management. When used in this document, the words "may," "will," "anticipate," "believe," "estimate," "expect," "intend" and words of similar import, are intended to identify any forward-looking statements. These forward-looking statements include, among other things, statements relating to the following: HSNi's future financial performance, HSNi's business prospects and strategy, anticipated trends and prospects in the various markets in which HSNi's businesses operate and other similar matters. These forward-looking statements that are not historical fact and are based on management's current expectations and assumptions about future events, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Although we believe our expectations are based on reasonable estimates and assumptions, they are not guarantees of performance.

Should one or more of these uncertainties, risks or changes in circumstances materialize, or should underlying assumptions prove incorrect, our actual results could differ materially from those anticipated in these forward-looking statements. Factors that could cause or contribute to such differences include but are not limited to those described under "Risk Factors," included in HSNi's Annual Report on Form 10-K for the year ended December 31, 2013 and the following:

- the influence of the macroeconomic environment and its impact on consumer confidence and spending levels;
- our ability to attract new and retain existing customers in a cost-effective manner;
- our exposure to intense competition and our ability to effectively compete for customers;
- changes in our relationships with pay television operators, vendors, manufacturers and other third
  parties;
- changes in product shipping and handling costs particularly if we are unable to offset them;
- any technological or regulatory developments that could negatively impact the way we do business, including developments requiring us to collect and remit state and local sales and use taxes;
- risks associated with possible systems failures and/or security breaches, including, any security breach that results in the theft, transfer or unauthorized disclosure of
  customer, employee or company information, or the failure to comply with various laws applicable to HSNi in the event of such a breach;
- HSNi's business prospects and strategy, including whether HSNi's initiatives will be effective;
- our ability to offer new or innovative products and services through various platforms in a cost effective manner and consumer acceptance of these products and services;
- risks associated with acquisitions including the ability to successfully integrate new businesses and achieve expected benefits and results; and
- the loss of any key member of our senior management team

Other unknown or unpredictable factors that could also adversely affect HSNi's business, financial condition and results of operations may arise from time to time.

You should not place undue reliance on these forward-looking statements. All written or oral forward-looking statements that are made or are attributable to us are expressly qualified in their entirety by this cautionary notice. Such forward-looking statements speak only to the date such statements are made and we do not undertake to update, revise or otherwise publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of any unanticipated events. Although we believe that our expectations are based on reasonable assumptions, we can give no assurance that our expectations will materialize. Historical results should not be considered an indication of future performance.

#### **Results of Operations**

#### Net Sales

Net sales primarily relate to the sale of merchandise, including shipping and handling fees, and are reduced by incentive discounts and actual and estimated sales returns. Sales taxes collected are not included in net sales. Digital sales include sales placed through our internet websites and our mobile applications, including tablets and smart phones.

Revenue is recorded when delivery to the customer has occurred. Delivery is considered to have occurred when the customer takes title and assumes the risks and rewards of ownership, which is generally on the date of shipment. HSNi's sales policy allows customers to return virtually all merchandise for a full refund or exchange, subject to preestablished time restrictions.

Total HSNi net sales	\$ 837,477	5%	\$	798,890	\$ 2,470,101	4%	\$	2,384,147		

HSNi net sales in the third quarter of 2014 increased 5%, or \$38.6 million, due to 7% sales growth at HSN. Cornerstone's net sales remained relatively unchanged. Digital sales grew 7% with penetration increasing 90 basis points to 47.4%. The gross units shipped in the third quarter of 2014 increased 1% to 15.0 million and the average price point increased 3% to \$62.35.

HSNi net sales in the nine months ended September 30, 2014 increased 4%, or \$86.0 million, due to 4% sales growth at HSN and 3% sales growth at Cornerstone. Digital sales grew 7% with penetration increasing 160 basis points to 47.0%. The gross units shipped increased 3% to 44.3 million and the average price point increased 1% to \$62.49.

#### HSN

HSN net sales in the third quarter of 2014 increased 7%, or \$39.7 million. Digital sales grew 13% and penetration increased 200 basis points to 38.8%. There was strong sales growth in the Fashion and Beauty & Health divisions, partially offset by a decline in Jewelry. Within the Home & Other division, there were increases in the home design and electronics categories, offset by a decrease in culinary. The return rate decreased 120 basis points to 17.6% from 18.8% in the prior year primarily due to a shift to merchandise with historically lower return rates. Gross units shipped increased 3% to 11.5 million. Average price point increased 4% to \$57.98 primarily due to changes in product mix and lower clearance sales.

HSN net sales in the nine months ended September 30,2014 increased 4%, or \$64.3 million. Digital sales grew 10% and penetration increased 200 basis points to 38.0%. Sales grew in all divisions with the exception of Jewelry. Within Home & Other, there was a significant increase in the home design category, offset by a decrease in electronics. The return rate decreased 110 basis points to 18.2% from 19.3% in the prior year primarily due to a shift to merchandise with historically lower return rates. Gross units shipped increased 2% to 33.9 million and average price point increased 1% to \$57.33.

Divisional product sales mix at HSN is provided in the table below:

	Three Months Ended	l September 30,	Nine Months Ended September 30,

#### Cornerstone

Cornerstone net sales in the third quarter of 2014 decreased \$1.1 million to \$259.2 million. Sales grew in the home brands, offset by lower sales in the apparel brands, particularly Garnet Hill. Digital sales penetration was 66.5%, consistent with the prior year. Catalog circulation decreased 4% compared to the prior year; circulation increased in the home brands but were more than offset by lower circulation in the apparel brands.

Cornerstone net sales in the nine months ended September 30, 2014 increased 3%, or \$21.6 million. The increase in net sales was driven by sales growth in the home brands, partially offset by lower sales in the apparel brands, particularly Garnet Hill. Digital sales grew 4% with penetration increasing 60 basis points to 65.9%, up from 65.3% in the prior year. Catalog circulation increased 3% compared to the prior year.

The brand mix at Cornerstone is provided in the table below (as a percentage of net sales):

	Three Months Ended	d September 30,	Nine Months Ended September 30		
	2014	2013	2014	2013	
Home brands (Ballard Designs, Frontgate, Grandin Road and Improvements)	75.6%	71.8%	77.3%	74.4%

#### **Cost of Sales and Gross Profit**

Cost of sales consists primarily of the cost of products sold, shipping and handling costs and compensation and other employee-related costs for personnel engaged in warehouse functions. Cost of products sold includes merchandise cost, inbound freight and duties and certain allocable general and administrative costs, including certain warehouse costs.

#### HSN

Gross profit for HSN in the third quarter of 2014 increased 9%, or \$16.5 million. Gross margin increased 50 basis points to 35.1% primarily due to lower clearance sales and higher product margins, partially offset by higher net shipping expense.

Gross profit for HSN in the nine months ended September 30, 2014 increased 4%, or \$23.7 million. Gross margin was 35.1%, consistent with the prior year. The gross margin was favorably impacted by changes in product mix (primarily from electronics to home design and beauty) and lower clearance sales, offset by an increase in net shipping expense.

#### Cornerstone

Gross profit for Cornerstone in the third quarter of 2014 decreased 3%, or \$2.7 million, compared to the prior year. Gross margin decreased 80 basis points to 38.5% due to lower net shipping margins and increased promotional activity primarily in the apparel brands.

Gross profit for Cornerstone in the nine months ended September 30,2014 decreased 3%, or \$9.9 million, compared to the prior year. Gross margin decreased 240 basis points to 38.1% primarily due to increased promotional activity in response to competitive market conditions and liquidations to sell through prior year end inventory positions in the apparel brands, particularly Garnet Hill.

#### Selling and Marketing Expense

Selling and marketing expense consists primarily of advertising and promotional expenditures, compensation and other employee-related costs (including stock-based compensation) for personnel engaged in customer service, sales and merchandising, production and programming functions and on-air distribution costs. Advertising and promotional expenditures primarily include catalog production and distribution costs and online marketing, including fees paid to search engines and third-party distribution partners.

As a percentage of HSNi net sales	20.5%	(20 bp)		20.7%		21.1%	(10 bp)		21.2%	

HSNi's selling and marketing expense in the third quarter of 2014 increased 4%, or \$6.5 million, and was 20.5% of net sales compared to 20.7% in the prior year. The increase in expense at HSN was primarily due to higher net marketing expense, additional distribution of HSN2 and an increase in healthcare costs. Cornerstone's expense was relatively flat, although did experience increases in personnel costs and healthcare costs for its call center, which were offset by lower catalog costs, the result of a 4% decrease in circulation.

HSNi's selling and marketing expense in the nine months ended September 30, 2014 increased 3%, or \$17.0 million, and was 21.1% of net sales compared to 21.2% in the prior year. The increase was primarily due to higher catalog costs associated with a 3% increase in Cornerstone's circulation; additional on-air distribution of HSN2; an increase in employee-related costs at Cornerstone, particularly for its call center; an increase in digital marketing; and an increase in healthcare costs.

#### General and Administrative Expense

General and administrative expense consists primarily of compensation and other employee-related costs (including stock-based compensation) for personnel engaged in finance, legal, tax, human resources, information technology and executive management functions, bad debts, facilities costs and fees for professional services.

	 Three Mo	nths Ended Sept	ember 30,		Nine Months Ended September 30,

As a percentage of HSNi net sales	6.4%	(10 bp)		6.5%		6.5%	(10 bp)		6.6%

HSNi's general and administrative expense in the third quarter of 2014 increased 3%, or \$1.7 million, and was 6.4% of net sales compared to 6.5% in the prior year. The increase in expense was primarily due to higher bad debt expense driven by an increase in utilization of HSN's extended payment program ("FlexPay"). Additionally, there was a decrease in severance-related costs that was offset by increases in other employee-related costs.

HSNi's general and administrative expense in the nine months ended September 30, 2014 increased 3%, or \$4.1 million, and was 6.5% of net sales compared to 6.6% in the prior year. The increase in expense was primarily due to two legal settlements and associated legal fees (including a \$3.1 million settlement with the Consumer Product Safety Commission ("CPSC")). Additionally, there was a decrease in severance-related costs that was offset by increases in other employee-related costs.

In June 2013, the CPSC notified the Company that the CPSC was investigating whether the Company complied with certain reporting requirements of the Consumer Product Safety Act related to a product sold from December 2005 through July 2010 at one of the Cornerstone brands. In June 2014, the Company reached a \$3.1 million settlement for the civil penalty

assessed by the CPSC which was accrued in the first quarter of 2014 in "general and administrative" expense in the consolidated statements of operations. Excluding the impact of the CPSC settlement, Cornerstone's general and administrative expense for the nine months ended September 30, 2014 would have been relatively unchanged from the prior year and would have been 5.5% of net sales, compared to 5.7% in the prior year. See further discussion of the settlement in Note 12-Commitments and Contingencies of the Notes to Consolidated Financial Statements.

#### **Depreciation and Amortization**

	 Three Mo	nths Ended Sep	tember 30,		Nine Months Ended September 30,

As a percentage of HSNi net sales	 1.3%	0 bp		1.3%		1.3%	0 bp		1.3%

Depreciation and amortization in the third quarter of 2014 increased 7%, or \$0.8 million, compared to the prior year. The increase was primarily due to the incremental depreciation associated with recent capital expenditures related to information technology and infrastructure.

Depreciation and amortization in the nine months ended September 30,2014 increased 8%, or \$2.4 million, compared to the prior year. The increase was primarily due to the incremental depreciation associated with recent capital expenditures related to information technology and infrastructure.

#### Adjusted EBITDA

Adjusted EBITDA is a non-GAAP measure and is defined in Note 4 of Notes to Consolidated Financial Statements.

	 Three Mo	· · · · · · · · · · · · · · · · · · ·		Nine Months Ended September 30,						
	2014	Change		2013		2014	Change		2013

HSNi	\$ 80,985	9%	\$	74,562	\$	222,835	(2)%	\$	226,555	
As a percentage of HSNi net sales	9.7%	40 bp		9.3%		9.0%	(50 bp)		9.5%	

HSNi's Adjusted EBITDA in the third quarter of 2014 increased 9%, or \$6.4 million, and was 9.7% of net sales compared to 9.3% in the prior year. The increase in HSNi's Adjusted EBITDA is due to the 5% net sales and a 40 basis point improvement in operating expense leverage (excluding non-cash charges). HSN's Adjusted EBITDA increased 17%, or \$9.6 million, due to 7% growth in net sales, a 50 basis point increase in gross margin and a 50 basis point improvement in operating expense leverage (excluding non-cash charges). HSN's improved operating expense leverage is primarily due to severance costs incurred in the prior year, efficiencies in its call center and leverage over its on-air distribution costs driven by the increase in sales. Cornerstone's Adjusted EBITDA decreased 18%, or \$3.2 million, primarily due to an 80 basis point decline in gross margin and a 40 basis point decline in operating expense leverage (excluding non-cash charges).

HSNi's Adjusted EBITDA in the nine months ended September 30, 2014 decreased 2%, or \$3.7 million, and was 9.0% of net sales compared to 9.5% in the prior year. The decrease in HSNi's Adjusted EBITDA was primarily due to a 70 basis point decline in the gross margin primarily due to increased promotional activity at Cornerstone. HSN's Adjusted EBITDA increased 9%, or \$15.3 million, primarily due to 4% growth in net sales and 40 basis point improvement in operating expense leverage (excluding non-cash charges). HSN's improved operating expense leverage is primarily due to lower employee compensation-related costs as a result of lower headcount, a decrease in severance costs and efficiencies in its call center. Cornerstone's Adjusted EBITDA decreased 36%, or \$19.0 million, primarily due to a gross margin decline of 240 basis points due to increased promotional activity.

As a percentage of HSNi net sales	7.9%	30 bp		7.6%		7.1%	(70 bp)		7.8%	

HSNi's operating income in the third quarter of 2014 increased 8%, or \$4.9 million, and was 7.9% of net sales compared to 7.6% in the prior year. The increase was due to the 5% or \$38.6 million increase in net sales and 40 basis point decrease in operating expense leverage.

HSNi's operating income in the nine months ended September 30,2014 decreased 5%, or \$9.7 million, and was 7.1% of net sales compared to 7.8% in the prior year. The decrease was due to a 70 basis point decline in gross margin primarily due to Cornerstone's increased promotional activity and the \$3.1 million CPSC settlement recorded in the current year.

#### Other Income (Expense)

	 Three Mo		 Nine Months Ended September 30,					
	 2014	Change		2013	 2014	Change		2013
	 (D		(Dollars in thousands)					
Interest income	\$ 50	4%	\$	48	\$ 163	9%	\$	150
Interest expense	(1,883)	13%		(1,673)	(5,506)	8%		(5,078)
Total other expense, net	\$ (1,833)	13%	\$	(1,625)	\$ (5,343)	8%	\$	(4,928)
As a percentage of HSNi net sales	 0.2%	0 bp		0.2%	 0.2%	0 bp		0.2%

Interest expense is primarily related to the term loan outstanding under the Credit Agreement. The change in interest expense between periods is primarily due to a higher average interest rate (including the impact of the interest rate swap), partially offset by a lower average outstanding balance. HSNi executed an interest rate swap with a notional amount of \$187.5 million that took effect on January 31, 2014. The interest rate swap effectively fixes the floating LIBOR-based interest on \$187.5 million of the outstanding term loan resulting in a fixed rate of 2.3525% (based on HSNi's leverage ratio as of September 30, 2014) on the hedged portion of the term loan.

#### **Income Tax Provision**

For the three and nine months ended September 30, 2014, HSNi recorded tax provisions of \$24.6 million and \$65.2 million, respectively, which represents an effective tax rate of 38.4%. For the three and nine months ended September 30, 2013, HSNi recorded tax provisions of \$17.4 million and \$63.1 million, respectively, which represents effective tax rates of 29.3% and 35.1%, respectively. The change in the effective tax rate for the current year compared to the prior year periods was primarily due to discrete tax benefits of \$3.7 million realized in the third quarter of 2013 and the non-deductibility of the \$3.1 million settlement with the CPSC recognized in the first quarter of 2014.

#### Liquidity and Capital Resources

As of September 30, 2014, HSNi had \$93.1 million of cash and cash equivalents compared to \$196.4 million as of December 31, 2013 and \$108.3 million as of September 30, 2013.

Net cash provided by operating activities for thenine months ended September 30, 2014 was \$28.2 million compared to \$95.1 million in the prior year, a decline of \$66.9 million. The decrease is primarily due to an increase in inventories, partially offset by the timing of payments of accounts payable and income taxes. Inventory growth in the third quarter outpaced the prior year as HSN normalized its inventory levels to support future sales growth, made strategic investments in certain proprietary products in its home division and enhanced its digital assortment.

Net cash used in investing activities attributable to continuing operations for thenine months ended September 30, 2014 was \$25.4 million and was primarily related to capital expenditures. The capital expenditures were primarily for investments in information technology and infrastructure.

Net cash used in financing activities attributable to continuing operations for thenine months ended September 30, 2014 was \$106.1 million. HSNi paid \$55.5 million for approximately 1.0 million shares of common stock repurchased during thenine months ended September 30, 2014. HSNi also paid cash dividends of \$0.25 per common share resulting in payments totaling \$39.5 million, representing a 39% increase in the dividend per common share declared in the prior year. HSNi repaid \$9.4 million of its term loan during the nine months ended September 30, 2014. HSNi had a cash outflow of \$10.2 million used to cover withholding taxes for stock-based awards. Additionally, HSNi had \$6.3 million of excess tax benefits from stock-based awards.

HSNi's \$600 million Credit Agreement is secured by 100% of the voting equity securities of HSNi's U.S. subsidiaries and 65% of the voting equity securities of HSNi's first-tier foreign subsidiaries. Certain HSNi subsidiaries have unconditionally guaranteed HSNi's obligations under the Credit Agreement. The Credit Agreement, which includes a \$350 million revolving credit facility and a \$250 million term loan, may be increased up to \$850 million subject to certain conditions and expires April 24, 2017. As of September 30, 2014, the balance of the term loan was \$231.3 million.

The Credit Agreement contains various covenants, limitations and events of default customary for similar facilities including a maximum leverage ratio of 3.00x and a minimum interest coverage ratio of 3.00x. HSNi was in compliance with all such covenants as of September 30, 2014, with a leverage ratio of 0.70x and an interest coverage ratio of 55.58x.

Loans under the Credit Agreement bear interest at a per annum rate equal to LIBOR plus a predetermined margin that ranges from 1.50% to 2.25% or the Base Rate (as defined in the Credit Agreement) plus a predetermined margin that ranges from 0.50% to 1.25%. HSNi can elect to borrow at either LIBOR or the Base Rate and the predetermined margin is based on HSNi's leverage ratio. The term loan interest rate as of September 30, 2014 was 1.66%. HSNi pays a commitment fee ranging from 0.25% to 0.40% (based on the leverage ratio) on the unused portion of the revolving credit facility.

The amount available under the Credit Agreement is reduced by the amount of commercial and standby letters of credit issued under the revolving credit facility, which totaled \$13.1 million as of September 30, 2014. The ability to draw funds under the revolving credit facility is dependent upon meeting the aforementioned financial covenants, which may limit HSNi's ability to draw the full amount of the facility. As of September 30, 2014, the additional amount that could be borrowed under the revolving credit facility, in consideration of the financial covenants and outstanding letters of credit, was approximately \$336.9 million.

To reduce our future exposure to rising interest rates under our credit facility, we entered into a forward-starting swap in December 2012 that effectively converts \$187.5 million of our variable rate term loan to a fixed-rate basis beginning January 2014 through April 2017. For additional information related to our interest rate swap, refer to Note 7 of Notes to Consolidated Financial Statements.

HSNi does not currently have any material commitments for capital expenditures; however, management does anticipate that HSNi will need to make capital and other expenditures in connection with the development and expansion of its operations. Our capital expenditures for fiscal 2014 are planned at approximately \$50 to \$60 million and primarily relate to our investments in our distribution centers, information technology and digital commerce. HSNi's ability to fund its cash and capital needs will be affected by its ongoing ability to generate cash from operations, the overall capacity and terms of its financing arrangements as discussed above, and access to the capital markets. HSNi believes that its cash on hand, its anticipated operating cash flows, its available unused portion of the revolving credit facility and its access to capital markets will be sufficient to fund its operating needs, capital, investing and other commitments and contingencies for the foreseeable future.

On September 27, 2011, HSNi's Board of Directors approved a share repurchase program which allowed HSNi to purchase 10 million shares of its common stock from time to time through privately negotiated and/or open market transactions. The timing of repurchases and the actual number of shares repurchased depended on a variety of factors, including the stock price, corporate and regulatory requirements, restrictions under HSNi's debt obligations and other market and economic conditions. For the nine months ended September 30, 2014, HSNi acquired under the program and subsequently retired approximately 1.0 million shares of its outstanding common stock for \$55.5 million at an average price of \$54.87. In July 2014, HSNi completed its 10 million share repurchase program at an aggregate cost of \$451.0 million, representing an average cost of \$45.10 per share.

In the fourth quarter of 2014, HSNi's Board of Directors approved a cash dividend of \$0.35 per common share. This dividend represents a 40% increase in the prior dividend of \$0.25 per share. The dividend will be paid on December 17, 2014 to HSNi's record holders as of December 3, 2014.

#### Seasonality

HSNi is affected by seasonality, although historically our business has exhibited less seasonality than many other retail businesses. Our sales levels are generally higher in the fourth quarter.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of HSNi's market risks, see "Item 7A. Quantitative and Qualitative Disclosures about Market Risk" in HSNi's Annual Report on Form 10-K for the year ended December 31, 2013. No material changes have occurred in HSNi's market risks since December 31, 2013.

#### ITEM 4. CONTROLS AND PROCEDURES

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our "disclosure controls and procedures" (as defined in Rule 13a-15(e) promulgated under the Exchange Act) as of September 30, 2014. Based on that evaluation, management has concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to ensure that information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting that occurred during the quarter endedSeptember 30, 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II

#### ITEM 1. LEGAL PROCEEDINGS

In the ordinary course of business, we are involved in various legal matters arising out of our operations. These matters may relate to claims involving property, personal injury, contract, intellectual property (including patent infringement), sales tax, product recalls, regulatory compliance, employment matters and other claims. As of the date of this filing, we are not a party to any legal proceedings that are reasonably expected to have a material adverse effect on our business, results of operations, financial condition or cash flows; however, litigation matters are subject to inherent uncertainties and the results of these matters cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on our business, results of operations, financial condition or cash flows. Moreover, any claims or regulatory actions against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources.

See Note 12 - Commitments and Contingencies in Part I, Item 1 for additional information regarding legal matters in which we are involved.

#### ITEM 1A. RISK FACTORS

See Part I. Item 1A., "Risk Factors," of HSNi's Annual Report on Form 10-K for the year endedDecember 31, 2013, for a detailed discussion of the risk factors affecting HSNi. There have been no material changes from the risk factors described in the annual report.

#### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

#### **Issuer Purchases of Equity Securities**

On September 27, 2011, our Board of Directors authorized us to repurchase up to 10 million shares of our common stock. Under the terms of the share repurchase program, HSNi repurchased its common stock from time to time through privately negotiated or open market transactions, including pursuant to a trading plan in accordance with Rule 10b5-1 and Rule 10b-18 under the Securities Exchange Act of 1934, as amended, or by any combination of such methods. The timing of repurchases and the actual number of shares repurchased depended on a variety of factors, including the stock price, corporate and regulatory requirements, restrictions under the company's debt obligations and other market and economic conditions. In July 2014, HSNi completed its 10 million share repurchase program at an aggregate cost of \$451.0 million, representing an average cost of \$45.10 per share.

Below is a summary of our common stock repurchases during thethird quarter of 2014:

Period	Number of Shares Purchased	Average Price Paid Per Share	Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased under the Plans or Programs
