QVC GROUP REPORTS FOURTH QUARTER AND YEAR END 2024 FINANCIAL RESULTS

Englewood, Colorado, February 27, 2025 – QVC Group, Inc. ("QVC Group") (Nasdaq: QVCGA, QVCGB, QVCGP) today reported fourth quarter and year end 2024 results⁽¹⁾.

"2024 was an important year for the company and we achieved several milestones. We successfully completed Project Athens, resulting in a second straight year of Adjusted OIBDA growth as reported and enhanced operating discipline. We also reduced our debt levels to strengthen the balance sheet and grew our streaming business. We faced challenges in the second half of 2024, driven by heightened competition for viewership with the Olympics and the election, as well as a conservative consumer environment, both of which pressured our top line results and resulted in sales deleverage," said David Rawlinson, President and CEO of QVC Group. "In November, we announced a new three-year strategy focused on returning the business to growth. We are moving quickly to transform into a scaled player in live social shopping and believe we have the key assets to win in this market. To enable this strategy we are moving decisively, including consolidating headquarters and studio operations into West Chester, Pennsylvania, re-naming the company to QVC Group, ramping up social media operations, and continuing to actively manage our balance sheet."

Fourth quarter and full year 2024 headlines:

- Qurate Retail, Inc. renamed to QVC Group, Inc. on February 21, 2025
- QVC Group revenue decreased 6% in Q4 and 5%⁽²⁾ in full year in both US Dollars and constant currency⁽³⁾
- Generated operating loss of \$1.3 billion in Q4 and \$809 million in full year
- Adjusted OIBDA⁽⁴⁾ decreased 8% in Q4 and 1%⁽²⁾ in full year in US Dollars
 - In constant currency adjusted OIBDA(4) decreased 8% in Q4 and was flat(2) in full year
- QxH revenue decreased 8% in Q4 and 6% in full year
- QVC International revenue was flat in Q4 and decreased 2% in full year in US Dollars
 - o In constant currency⁽³⁾, revenue was flat in Q4 and in full year
- Cornerstone revenue decreased 7% in Q4 and 11% in full year
- Reduced QVC Group principal amount of debt by \$442 million in 2024 and extended maturity profile

Discussion of Results

Unless otherwise noted, the following discussion compares financial information for the three months and year ended December 31, 2024 to the same periods in 2023.

a) For a definition of constant currency financial metrics, see the accompanying schedules.

b) Zulily was divested on May 24, 2023. For the year ended December 31, 2023, Zulily recorded \$5 million in restructuring charges. These items are included in operating income and excluded from Adjusted OIBDA.

c) For the year ended December 31, 2023, QxH incurred (i) a \$326 million non-cash impairment charge related to goodwill, (ii) a \$208 million net gain on insurance proceeds representing insurance proceeds received in excess of fire losses, (iii) \$13 million of restructuring costs related to workforce reduction, (iv) a \$17 million gain on the sale of the Rocky Mount, NC fulfillment center ("Rocky Mount") and (v) \$16 million of penalties. For the year ended December 31, 2024, QxH incurred (i) a \$1.5 billion non-cash impairment charge related to goodwill and tradenames and (ii) \$10 million of restructuring charges related to a plan to shift its information technology operating model. These items are included in operating income and excluded from Adjusted OIBDA. See reconciling schedule 2.

d) For the year ended December 31, 2023, QVC International incurred \$113 million of gains related to the sale leaseback of its UK and German fulfillment centers partially offset by \$17 million in restructuring charges. For the year ended December 31, 2024, QVC International recorded \$8 million of restructuring charges related to a plan to shift its information technology operating model, partially offset by a \$1 million gain related to the sale leaseback of a German property. These items are included in operating income and excluded from Adjusted OIBDA. See reconciling schedule 2.

e) For the year ended December 31, 2023, Cornerstone recorded \$2 million in restructuring charges related to a workforce reduction which are included in operating income and excluded from Adjusted OIBDA. See reconciling schedule 2.

QxH

QxH revenue declined in the fourth quarter and full year primarily due to lower units shipped, which decreased 5% in both periods, as well as lower average selling price and shipping and handling revenue. These factors were partially offset by favorable returns in both periods. QxH grew apparel with declines in all other categories in the fourth quarter and reported declines in all categories for the full year.

Operating loss in the fourth quarter and full year was primarily driven by a \$1.5 billion non-cash impairment charge related to goodwill and tradenames. For the fourth quarter and full year 2024, Adjusted OIBDA margin⁽⁴⁾ increased mainly due to higher product margins and favorable operating costs and selling, general and administrative expenses. These gains were partially offset by fulfillment (warehouse and freight) pressure in the fourth quarter and sales deleverage in both periods. Product margins increased due to higher initial margins driven by Project Athens initiatives. Fulfillment margin pressure in the quarter was due to higher freight rates and fulfilment center wages. Operating expenses decreased 11% in the fourth quarter and 7% in the full year due to lower commissions. Selling, general and administrative expenses declined 10% in the quarter and 4% in the full year due to lower personnel and outside services costs. For the full year, lower selling, general and administrative expense was partially offset by higher marketing costs to support QVC's Age of Possibility campaign.

QVC International

Exchange rate fluctuations were neutral on fourth quarter results and negatively impacted full year 2024 results. For the full year, the US Dollar strengthened 7% against the Japanese Yen, partially offset by weakening 3% against the British Pound. The financial metrics presented in this press release also provide a comparison of the percentage change in QVC International's results in constant currency (where applicable) to the comparable figures calculated in accordance with US GAAP for the fourth quarter and full year 2024.

QVC International's constant currency revenue was flat for the fourth quarter and full year with a 1% and 3% increase in units shipped, respectively, offset by a 2% and 3% decline in average selling price, respectively. QVC International reported growth in home, accessories and apparel with a decline in beauty in the fourth quarter. For the full year, QVC International experienced constant currency growth in home, accessories, electronics and jewelry with a decline in beauty and apparel.

Operating margin increased in the fourth quarter and decreased for the full year and Adjusted OIBDA margin increased in both periods. Operating income decreased for the full year primarily as a result of comparing against \$113 million of gains related to the sale and leaseback of UK and German fulfillment centers recorded in the first quarter of 2023. For both periods, QVC International reported higher product margins and favorable selling, general and administrative expenses, partially offset by fulfillment pressure. Product margins increased due to favorable returns and vendor negotiations.

Administrative costs declined due to lower outside services and personnel costs. Fulfillment pressure was mainly attributable to higher freight rates and fulfillment center wages, as well as increased units shipped.

Cornerstone

Cornerstone revenue decreased in the fourth quarter and full year, reflecting softness and competitive promotional pressure in the home sector. Cornerstone is implementing a transformation plan to improve its revenue and profitability given the continued challenges in the housing sector. Operating income and Adjusted OIBDA margin decreased for the fourth quarter and full year due to costs for outside services related to its transformation plan, higher personnel expenses, and sales deleverage.

Links to this press release and replays of the call will also be available on QVC Group's website.

This press release includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements about business strategies and initiatives (including our new three-year strategy and Cornerstone's transformation plan) and their expected benefits, market potential, future financial performance and prospects, future repayment of debt and other matters that are not historical facts. These forward-looking statements involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including, without limitation, possible changes in market acceptance of new products or services, competitive issues, regulatory matters affecting our businesses, continued access to capital on terms acceptable to QVC Group, changes in law and government regulations, the availability of investment opportunities, general market conditions (including as a result of future public health crises), issues impacting the global supply chain and labor market and use of social media and influencers. These forward-looking statements speak only as of the date of this press release, and QVC Group expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in QVC Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Please refer to the publicly filed documents of QVC Group, including the most recent Form 10-K, for additional information about QVC Group and about the risks and uncertainties related to QVC Group's business, which may affect the statements made in this press release.

NON-GAAP FINANCIAL MEASURES

To provide investors with additional information regarding our financial results, this press release includes a presentation of Adjusted OIBDA, which is a non-GAAP financial measure, for QVC Group, QVC (and certain of its subsidiaries), Zulily (through May 23, 2023) and Cornerstone together with a reconciliation to that entity or such businesses' operating income, as determined under GAAP. QVC Group defines Adjusted OIBDA as operating income (loss) plus depreciation and amortization, stock-based compensation, and where applicable, separately identified impairments, litigation settlements, restructuring, penalties, acquisition-related costs, fire related costs, net (including Rocky Mount inventory losses), and (gains) losses on sale leaseback transactions. Further, this press release includes Adjusted OIBDA margin, which is also a non-GAAP financial measure. QVC Group defines Adjusted OIBDA margin as Adjusted OIBDA divided by revenue.

QVC Group believes Adjusted OIBDA is an important indicator of the operational strength and performance of its businesses by identifying those items that are not directly a reflection of each business's performance or indicative of ongoing business trends. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because Adjusted OIBDA is used as a measure of operating performance, QVC Group views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that QVC Group 's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

This press release also references certain financial metrics on a constant currency basis, which is a non-GAAP measure, for QVC Group. Constant currency financial metrics, as presented herein, are calculated by translating the current-year and prior-year reported amounts into comparable amounts using a single foreign exchange rate for each currency.

QVC Group believes constant currency financial metrics are an important indicator of financial performance, in particular for QVC, due to the translational impact of foreign currency fluctuations relating to its subsidiaries in the UK, Germany, Italy and Japan. We use constant currency financial metrics to provide a framework to assess how our businesses performed excluding the effects of foreign currency exchange fluctuations. Please see the financial tables at the beginning of this press release for a reconciliation of the impact of foreign currency fluctuations on revenue, operating income, Adjusted OIBDA and average selling price.

SCHEDULE 1

The following table provides a reconciliation of QVC Group's Adjusted OIBDA to its operating income (loss) calculated in accordance with GAAP for the three months ended December 31, 2023, March 31, 2024, June 30, 2024, September 30, 2024 and December 31, 2024 and years ended December 31, 2023 and 2024.
